

## EDUCATION

*University of Texas, San Antonio*

**B.S. in Civil Engineering**

**2007**

## PROFESSIONAL REGISTRATION

Professional Engineer – Missouri & Texas

## EXPERIENCE

*Bowen Engineering & Surveying, Cape Girardeau, MO*

### **Project Engineer**

**2017 to Present**

Assigned to work closely with the Southeast Missouri Regional Port Authority (Semo Port) to assist with as much of their civil engineering needs as possible.

Responsibilities include providing design and construction engineering services for municipal, residential, and commercial site plan development with expertise in: stormwater, wastewater, and drinking water system design. I meet with clients to determine the scope of services required for their project and then formulate a project management plan specific to their needs.

Surveying and mapping experience includes data processing and production of topographic maps and surveys through computer aided design.

*S. H. Smith & Co., Inc., Poplar Bluff, MO*

### **Project Manager**

**2007 to 2017**

Responsibilities included project management and engineering design of municipal, residential, and commercial projects. Projects included site development, drinking water and wastewater system design, construction inspection, drainage studies, and environmental assessment studies.
